LETHBRIDGE

At Office of Herbert Cooper
Champion, each Thursday
afternoon.

Local & General

Mrs. Cowell is spending the week
visiting in Lethbridge.

Mrs. A. B. Roberts and Beverly of
Barons left last week for Vancouver
where they will spend a month.

Mr. P. Larkin arrived home Friday
having made rapid recovery following
his recent operation.

Miss K. Watkins of Carbon is spend-
ing her vacation at her home here.

Mrs. Alex Goss entertained at din-
ner on Saturday evening in honor of
Mr. and Mrs. J. Dillingham who are
visitors here from Oakland California.

Those big purple and blue beetles
have made their appearance on the
cragstone hedges, making heavy in-
roads on the foliage.

A rose bush in A. W. Jopling's yard
is the cause of considerable comment.
At the time of writing the bush con-
tained thirty buds with several of
them bursting into bloom.

Mr. and Mrs. Ed Weiss were
among the Lethbridge visitors this
week.

Roy Luchin, Frank Raebler
and Walter Raebler were Leth-
bridge visitors this week.

Mrs. A. Siegel and family
have been visiting friends and
relatives at Lomond and Travers.

Mr. and Mrs. S. Milliken and
family and Mr. and Mrs. L.
Milliken left for Pease River
on Friday where they have
taken up homesteads.

Mr. Lyman Jopling spent a
few days last week visiting at
the home of Mr. and Mrs. Tom
Sletto.

J. S. Appolluma, of Coleman,
has been relieving the vault in
the Bank of Commerce.

Mrs. Lamont was hostess to
dinner on Monday evening
when her guests included Miss
McFall, Miss Clarkson and Miss
Cameron.

Miss Ina Hummon was a
week end guest at the home of
her sister Mrs. O. Harper. Miss
Hummon expects to leave for
Lake Louise to resume her
position there at the close of
school term in Irricana.

The youngest son of A. Miller
was thrown from a horse while
travelling at a fast rate and
received several leg injuries.
The accident occurred on Fri-
day, June 24.

R. M. Long of Calgary is
Champion visitor.

Mr. Herb Hunziger and
Leonard Bach were visitors in
Calgary this week.

A plant for mixing grass-
hopper poison has been installed
and is in operation at the
curling rink.

Mrs. Cote and daughter, Mrs.
Giroux and Madeline Blau-
germin of Calgary are visiting
Mrs. Theriault at the farm.

Mr. and Mrs. Steve Fath
motored to Calgary last week
bringing Jerry and Robert,
who have finished their school
term there, back with them.

Miss C. Barrett was taken to
Calgary Tuesday evening suffer-
ing from a broken ankle.
While riding a bicycle on Mon-
day evening, she had the mis-
fortune to fall, thus causing the
break.

Geo. Duquesne and his mother
returned to Champan on Tues-
day afternoon from their motor
trip to Montreal. Geo. reports
a splendid trip. Going and re-
turning by way of the States
he travelled a distance of 6,500
miles.

McGregor Lake ball team
clashed with Enchant in a
double header last Sunday and
the McGregor boys proved too
much for the Enchant boys in
both games which proved the
ability of the fish eaters who
can swing a bat as well as a fish
pole.

Champion Wins Over Vulcan

The Champion ball team journeyed
to Vulcan on Friday June 24 and came
home with the honors. Although at
times there were errors there was
some good baseball played. Both
teams were hitting freely but Cham-
pion outscored as shown by the score-
line. We hope the boys show as good form
on July 1st, on their own diamond and
take the prize money. The score by
innings and line-ups are as follows.
Score by Innings: R. H. E.
Champion 401 016 005-15 18 0
Vulcan 002 119 002-9 18 10

Ritten, ss; Love, 1b; Anderson,
p; Woodward, rf; Flynn, 3b; Clark
cf; Harper, lb.

COCHLAN-McGILLIVRAY

Knock United church, Calgary, was
the scene of a pretty wedding Wed-
nesday, June 22, at 10 a.m., when
Melba Jean McGillivray, eldest daugh-
ter of Mrs. E. P. Crawford, and Mr.
Norman Eldon Cochlan, youngest son
of Mrs. Jane Cochlan of Staveland were
united in marriage by Rev. Dr.
George A. Dillman.

The bride was given in marriage by
Mr. Harry Mitchell. Her only attend-
ant was her sister, Miss Furber Mc-
Gillivray. The bridegroom was sup-
ported by his brother, Mr. Mordie
Cochlan, as groomsmen.

After the ceremony a wedding
breakfast was served in the Alham-
bra room at Eaton's to which only
immediate relatives were invited.

Mr. and Mrs. Cochlan left by motor
for an extended trip to Jasper, Banff
and the Pacific Coast. On their re-
turn they will take up residence in
Staveland, Alberta.

Worm Plague Destroys Gardens

A plague of worms struck Champion
on Sunday and have started to take
toll of the gardens. Several have
made attempts to destroy them by
using Paris green, arsenate of lead etc.
but to no avail. In order to prevent
their entrance to gardens, not yet
infested, lines have been laid around the
border but in most cases this is hav-
ing no effect. Pitch has been laid on
doormats to prevent their entrance
into homes. Due to the worms on
the track the morning passenger had
difficulty in leaving the station. If
every remedy for their destruction
continues to fail the result will be a
complete demolition of the gardens.

Ladies Aid Present Departing Member With Gift

The June meeting of the Ladies Aid
was held at the home of Mrs. A. B.
Caldwell on Thursday June 23, all
members being present but two. The
members decided to request Mr.
Brunton of Vulcan to speak on "Mis-
sions" at some future date. During
the afternoon the president made a
presentation to Mrs. Bain. Mrs.
Seabier's address and the ack-
nowledgment of the recipient being
the feature of the afternoon. Refresh-
ments were served by Mrs. Bond and
Mrs. F. Caldwell. The next meeting
will be held at the home of Mrs. J. D.
McDougall on Thursday July 28.

Mr. and Mrs. Art Anderson, of Cal-
gary, have taken up permanent resi-
dence on their farm south east of
Champion. While moving their
household effects from Calgary, a
load of unknown origin, started in the
back of the truck, causing damage to
the extent of \$75. A club bag and
cane were completely destroyed and
a trunk was damaged.

Mrs. W. Ulrich entertained
at tea on Wednesday afternoon
in honor of her guests Mrs.
Dillingham, Miss Florence Ul-
rich and Mrs. Ed Ulrich. Those
present spent a very enjoyable
afternoon after which dainty
refreshments were served.

THURSDAY June 30, 1922

NOTES AND COMMENT

Airplane May Be Peace Dove

Returning to America from her successful aeronautic flight, Amelia Earhart Putnam brings the message that regular air travel between Europe and America is inevitable, but that strides must be made in airplane building before it can come. Earhart routes have no appeal to her. She believes that the development of transatlantic flying should progress by overcoming obstacles rather than going around them—a rule which has other than aeronautical application. Thus the world spins closer to another question of international scope. What nation will become "mistress of the air?" Will the air be divided like ancient Gaul? Or will a growing international-mindedness lead to "freedom of the air" and thus turn the airplane into a dove of peace?

Wild Life Flees Forest Fire

Winnipeg bears aviators describe the strange flight of wild life before a sweeping wall of fire in the blood-red Watershed. Flying above a blazing 30-mile front, the aviators looked down on panther and deer, fox and rabbit, coyote and partridge fleeing side by side and moving like an understanding family. Overwhelming danger has the same effect on beasts and men; they are suddenly all for one and one for all—none remembering that he was waiting his moment to devour another.

Russia Swells an Alloy Chest

U. S. S. R. produces its first aluminum. From the foundries of its great plant near the banks of the Volkhov, in Leningrad province, comes the result of experimentation with alloys discovered near the old capital. Only 4,000 tons are expected to be produced in 1922. But the ultimate production may reach 500,000 tons a year. Yul, sur, the USSR is expanding.

Quebec farmers are wondering just what to make of the statement of a visiting English educationist, Dr. W. B. Curry, that the art of milking a cow is more important in the education of a child than learning to recognize Greek conjunctions. They never had any doubts on the subject—at least that is to be concluded from the general impression conveyed. But to have a distinguished educationist say it—And milk selling at zero prices. Evidently art is lost unless it finds recognition—if it's only in a milk pail!

Since a German pilot has demonstrated that a glider may be towed successfully behind an airplane, we may yet look up to see father and the family vacationing across country in the old winged bus, their camping impediments stowed in a trailer.

"Pinch Foke by Yde Ices Tilt"—baseball headline. What the writer meant was that Yde, emergency cloutier, snatched a bingle to register tally that copped the contest.

Anyone who wants to know "what's in a name" can find out by asking his banker.

The springing up of an important third party seems quite unlikely. Most persons seem to think that two can cause enough trouble.

Paying bills on time might be easier if everyone should renew his note of optimism.

These are the days when the "o" in vacation is displaced for a time by an "a."

Regardless of the farmers' plantings, what they want most to raise this year is the price level.

And the style notes of 1922 show what many a well-dressed man will wear this summer.

Surgeon Says United States Intelligence Tests For Immigrants Are In Need Of Revision

Intelligence tests now available must be revised or the methods of securing changed before they are satisfactory for testing immigrants. It appears from a report of Dr. Lawrence Kohn, senior surgeon of the U.S. Public Health Service, before the meeting of the American Association for the Study of the Feebleminded.

The law now provides that no mental defective shall be admitted to this country. But although psychologists have devised special tests which do not require the use of language, the scores on these tests do not give a true picture of the mental ability of the person tested, Dr. Kohn found. His conclusion is based on the results of tests given to 3,000 persons desiring to enter the United States from Europe.

Men do conspicuously better on these non-verbal, or performance tests than do women, although there is no reason to suppose that the men are more intelligent than the women. Children like to read and write do the tests as well as their illiterate mothers, and, because of the difference in age attain a higher intelligence quotient which is mental age divided by actual age. Young adults do better than older people. And the difference between the illiterates and those who can read is very high.

"These facts seem to indicate that the scores on the tests depend on some extent at least upon the stimulating character of the environment and upon the education as well as upon innate capacity which they are supposed to measure," Dr. Kohn believes.

The average of the intelligence quotients of the illiterate women was below 50, which would place half of them in the classification psychologists call "imbeciles" or even lower, but the rating is misleading, Dr. Kohn points out.

The scores doubtless show very poor native intelligence, but they obviously do not mean all that they say. Fifty per cent of these women are not imbeciles, or even feebleminded, by any social standards.

The results for the men were also misleading, he found. Five per cent of the men from Southern Italy received a rating which showed them to have minds developed only to the level of an 8-year-old child, yet all had been able to support themselves in life within the law. It is known that some, with this grade of intelligence, come here, save money and send back home for their relatives.

Origin Of Family Term

Superstition Of Early Saxons Gave Us "Mares Nest"

Early Saxons believed in the existence of a queer monster named Mara, which crouched on the chest of sleepers (hence the term nightmare). This beast was supposed to live in a nest lined with gold. Credulous people used to look for Mara's nest hoping to discover the treasure. From this legend, any supposed great discovery which led to nothing, has become known as Mara's, or a mare's nest.

Pretreated Pain

During a political campaign a certain orator spoke to a great gathering of country people. He was impassioned, he was impressive, he was grand. The thunderous applause of the crowd told him so. He thrilled with the consciousness of his power over the minds of men. And, being in this state of mind, he stood in the midst of the assemblage, after speaking, and listened to the comments of the audience.

"What do you think of this speech?" asked one old farmer.

"Well," replied another, "I think that six to seven rain would have done more good!"

There are about 875 species of iris.

Turkish Public Baths Deprived Of Water

Citizens Of Ouza React Action Of Mayor Over Taxes

Fifteen thousand citizens of Ouza are crying for a bath.

A fight between the town government and the public bath owners over taxes led the mayor to cut off the water supply to all the bath houses. There exist only in a few wealthy homes, so practically the whole population depends on the public pools for the cleanliness which the Koran imposes on every good Moslem.

The women of Ouza are particularly loud in their protest, as bath-day is the chief social event of their lives. They make a whole day of it, carrying their hunch along and spending hours steaming themselves, reclining in the cooling rooms, nating nats, drinking coffee and gossiping.

Use Clouds As Screen

Every cloud and every mountain-side would be converted into a motion picture screen by a projector invented by a Berlin engineer. The apparatus has a range of five miles. On low-hanging clouds 20 feet above the earth, pictures 350 feet high can be flashed, while the distance of the machine from the mountain determines the size of the figures.

Winnipeg Newspaper Union

Fashion

454

STILL A NEWER AND LOVELY DRESS THAT'S SUITED FOR TOWN, AFTERNOONS OR RESORT

Here's one of the smartest and most becoming models Paris has sent us this season. The becoming neckline, so cool and lovely, suits slim or matron.

It is smart carried out as its inspirator in a sheer crepe print topped by plain sheer crepe. It meets many daytime needs. It has special appeal for the business woman.

Style No. 454 is designed for sizes 36, 38, 39, 40, 42, 44, 46 and 48.

Printed and plain crepe silk is conservatively smart.

For real summery wear, a sheer batiste in gay polka-dots, a sheer linen in tweed and tabbale silk are decidedly chic and practical.

Size 36 requires 3 1/2 yards of 39-inch material with 1 1/2 yards of 39-inch contrasting.

Price of pattern 25 cents in stamps or cash (in case is preferred). Wrap coin carefully.

CUSTOMER: "I want you to change this for a British egg. When I opened it this morning it hurt me in a language with which I am entirely unfamiliar."—The Humorist, London, England.

Stabilize Farm Values

Western Agriculture To Become More Profitable In the Economy

Near Future

With the "reasonably near future" agriculture in western Canada will become more profitable on a more permanent basis than in the past and farm values will become stabilized on the basis of net production returns, said C. M. Bowman, chairman of the board, Mutual Life Insurance Company, Waterloo, before the 10th annual convention of the Dominion Mortgage and Investments Association held in London, Ontario.

Mr. Bowman reviewed the investment and mortgage business of the past year in Canada. He dealt with the various pieces of restrictive legislation in the west designed "presumably to benefit the position of the debtor, but making it increasingly difficult for the mortgagee to enforce his contract," saying this was "undoubtedly an important influence underlying the eastward movement of funds for mortgage investment."

Belgium now has only about 170,000 unemployed.

Dublin, Irish Free State, has a campaign for better movies.

Isolated Four Centuries

To visit people in remote districts in the forests of the Nijni-Novgorod province of Russia who have been isolated from the rest of the world for 400 years an expedition left Moscow in June. The inhabitants of the districts still speak Russian as it was spoken in the sixteenth century.

FORMER GERMAN CROWN PRINCE MAY SUCCEED VON HINDENBURG

DR. ALBERT HUGENBERG

ADOLF HITLER. PRESIDENT PAUL VON HINDENBURG.

What is regarded by the masses in Germany as the first step towards the restoration of the monarchy in the Fatherland is believed. The report, the source of which is one of the most important newspapers in the chain owned by Dr. Alfred Hugenberg, opponent of Von Hindenburg in the recent Presidential election and head of the Nationalist Party, is to the effect that President Paul von Hindenburg intends to retire on his 85th birthday and urge that he be succeeded by former Crown Prince Wilhelm. Although the rumors are vigorously denied in governmental circles, political observers point out that there had been a steady growth of "Hindenburgism" in the New Republic since Dr. Heinrich Brüning, recently ousted Chancellor, came into power. The appointment of Franz von Papen to succeed Brüning, they say, is further evidence of that trend.

Three European Nations Have Reciprocally Agreed Not To Impose Any New Tariffs

Newest Northern Ontario Seaport

Moosonee, On James Bay, Plans For Settlement Of 5,000 People

The day before yesterday, figuratively speaking, the Hudson Bay region was ultima Thule as far as it concerned the vacation traveler. Now a line of steel in Manitoba follows the Nelson River for many miles then turns north to the port of Churchill. An even more recent penetration is the extension of the Temiskaming and Northern Ontario Railway through northern Ontario to the old fur-traders' rendezvous at Moose Factory. Northwards from Cochrane the railway line follows the Abitibi River to the Moose and then turns eastward to James Bay. Here will be located the newest seaport of northern Ontario, Moosonee, where plans for a settlement of 5,000 people are under way.

A survey party is now laying out the townsite in accordance with the accepted plans which provide for hotels, public buildings, hospitals, sports field. Water for Moosonee will be supplied from Stone Creek. The 300 acre town will be on the northern side of the Moose River, and will stretch for two and a half miles along the shore. The townsite will be the terminal of the line and will serve as a base for development along the coast of Hudson Bay such as fishing operations, the fur-trade and the pulp industry.

For years canoeists journeying down the Abitibi, Mistissibi or Temiskaming Rivers to the Moose River and thence to the Bay, were faced with the prospect of an arduous return trip up one of these rivers. Now the back-breaking tracking and poing of canoes up the rapids, and the labour of carrying dunnage bags and outfit over the portages has been rendered unnecessary. No longer need the pleasure of these cruises be marred by the thought of a laborious return—the "Iron Horse" has solved the difficulty.

The extension of this Ontario government owned railway has opened up very attractive new fishing waters. Many of the smaller streams in this new section abound with brook trout and in some of the larger streams even sturgeon may be hooked.

Canadian Institute Of International Affairs

Establishment Of A Permanent Office To Be Located In Toronto

Appointment of a permanent secretary and establishment of a permanent office, to be located in Toronto, was announced by the executive committee of the Canadian Institute of International Affairs, through Hon. N. W. Rowell, president of the Institute.

Rescott Field, of Toronto, is appointed permanent secretary. Mr. Field is a graduate of Toronto University (Trinity College) and a Rhodes scholar, taking his work at Christ Church, Oxford. Study of imperial and international affairs is the object of the institute.

Branches are now located in Halifax, Montreal, Ottawa, Toronto, Vancouver, Regina, Edmonton and Vancouver.

J. W. Daffoe, of Winnipeg is a vice-president.

Strange Bird Bath

Imprint Of Dinosaur's Foot Serves Feathered Bird At Ottawa

Ottawa may claim to having the most unique bird bath in Canada.

One of the large dinosaur footprints found at Peace River, collected for the National Museum of Canada, has been duplicated in enamel. It has a length of more than two feet and a depth of five or six inches, and has been placed in the museum grounds.

The birds of the capital now may enjoy the privilege of a morning dip in the unique bath bath moulded from the footprint of a dinosaur made in the mud of a shallow western lake long before the Rocky Mountains arose above the plains.

This spring the prairie provinces had 12,200,000 acres under new fallow, 502,000 acres of new breaking and 6,768,000 of fall plowing—a total acreage prepared in the previous year of 19,468,000.

Nearly one-third of the adult male population of France today consists of bachelors.

Construction of public works in France is increasing.

Representatives of the governments of Holland, Belgium and Luxembourg

have reciprocally agreed not to impose any new tariffs and to proceed by annual reductions of 10 per cent. until a definite tariff level is reached.

They further undertake not to impose upon themselves any new measure of restriction on imports or exports—such as quotas—except in special determined cases. Any other state will be entitled to adhere to the convention on a footing of equality with the signatory states.

It is preceded by a preamble in which the contracting states declare they are "persuaded that progressive realization of greater freedom of trade is one of the essential conditions for world prosperity." They further declare they have appeared in undertaking in this sense concerted action in which all states will be entitled to participate, thus contributing to the re-establishment of the general economic situation.

The necessity of some action towards restoring the stability of the monetary system and of re-establishing international credit with removal of discrimination in the trade relations of the world, was urged in a resolution adopted by the three countries and designed to participate, thus contributing to the re-establishment of the general economic situation.

International Friendship

Dedication Of Waterton-Glacier Peace Park

Another link has been added to the chain of international friendship between Canada and United States.

In the midst of border mountains and lakes, representatives of both countries extended international greetings as they dedicated the Waterton-Glacier Peace Park to 117 years of goodwill between the two nations.

Mr. Charles Mander, Bart. of Watlington, England, director and past president of the Royal Canadian Institute, presided at the colorful ceremony, attended by representatives of political and clerical life and hundreds of Royal Canadian Institute members who sponsored the project.

Messages from Prime Minister Bennett and President Hoover were read by Lieutenant-Governor Walsh of Alberta and Governor John E. Erickson of Montana. Premier J. E. Brownlee headed a group of Alberta representatives, including Senator W. A. Buchanan.

Bands and church choirs from Montana attended.

Pedestrian's Rights

Organization Contemplated For the Protection Of Those Who Walk

"The Pedestrian's Rights Association" is the latest organization contemplated for the protection of pedestrians on highways and in the public streets. Letters of incorporation have been applied for by a firm of Ottawa barristers.

Protection of pedestrians from traffic dangers, promotion of publicity and instruction among the general public on such matters, the improvement of existing laws and their enforcement, and the education of citizens in reporting infractions of traffic laws are among the objects of the proposed association.

Newest In Fountains

An electric drinking fountain has been designed which only operates when the drinker leans over the fountain. The hand intercepts a beam of light shining on a electric eye. This automatically starts a stream of cold water flowing.

More than 36,000 people paid to hear a band concert in London recently.

"Are red cheeks a sign of good health?"

"Yes."

"Then you are healthier one side than the other."—Krasper, Stockholm.

DEVELOPMENT OF EMPIRE TRADE WOULD AID WEST

Saskatoon, Sask.—Envisaging the coming imperial conference as a rain in the clouds at a time of disillusionment and despair, Dr. J. W. Dafoe, editor of Canadian editors, addressed convention delegates of the Union of Saskatchewan Municipalities on "Canada and Foreign Markets," an address which looked to facilitation of empire trade and modification of obstacles to international commerce.

Dr. Dafoe, editor of the Winnipeg Free Press, termed by introductory speakers, including Premier J. T. M. Anderson, as "an eminent figure in empire journalism," delivered the main address at a luncheon devoted to the benefits that would accrue to the west.

Drawing attention to the substantial improvement in conditions that would follow any impetus to empire and world trade occasioned by the conference at Ottawa next month, the eminent speaker pointed to the benefits that would accrue to the west.

"There is no place in the world more likely to profit than the western provinces," he declared, "and no cities will feel the impulse quicker than the cities of the west."

While he advised his audience to follow the conference deliberations with interest and hope, he for a definite step upward and out of the depression, Dr. Dafoe was not too great expectations for "the conference of the family." In doing this, he recalled the many parleys of the past 10 years when world leaders had "talked much and done little."

Affirming that trade with the empire and the world was indispensable to Canada, "of all countries," the speaker had nothing but scorn for that "curious theory" that international trade was a zero-sum game. To him it seemed that "the world is getting its belly-full of doing without international trade and it doesn't like the idea very much. It won't be long, he predicted, until it was realized that world commerce was something indispensable."

Capture Market For Lumber

Canada Secures Australian Trade As Result Of Good Work Of Mission.

Montreal, Que.—Canadian lumber producers can hardly expect expansion of the Australian market as a result of the Imperial Economic Conference because they have already displaced United States lumber in that field, according to F. Abbey, Australian importer.

"This diversion is the result of the lumber trade mission which Canada sent over to Australia about 2½ years ago," said Mr. Abbey. "The gentlemen who were members of the commission knew their business very well. They visited us and told us the Canadian point of view. They attempted to sell nothing at all, but that at least as far as my state of Victoria is concerned, they were very successful. We don't buy lumber from the United States any more."

Deferred Elections

Report Manitoba Conservatives Will Not Contest Northern Ridings.

Winnipeg, Man.—Conservatives of Manitoba will not contest the deferred election seats at The Pas and Rupert's Land, it was made known at party headquarters here. Nomination day 4 and polling day July 14.

There will probably be an acclamation at Rupert's Land but in The Pas the Premier John Bracken to an election.

Proposed Change In System

Edmonton, Alberta.—Alberta proposes changing the present municipal system to one of "unified municipal areas," according to a plan announced by Premier John Brownlee. Increased efficiency in administration and a saving of more than a million dollars will result if the plan is adopted, it is believed.

Credit Men Meet

Saskatoon, Sask.—J. A. Acheson, Sherwin-Williams Paint Company, Winnipeg, was elected president of the Canadian Credit Men's Trade Association at their annual meeting here. J. P. Sullivan, Quaker Oats Company, Peterboro, Ontario, was named vice-president. H. Deitcher of Winnipeg, being re-elected general manager.

W. N. U. 1948

Advertise the West

Formal Opening Ceremonies At Port Churchill Are Approved.

Winnipeg, Man.—Formal opening of the Port of Churchill during the present season would meet with the full approval of the Manitoba Government, cabinet ministers stated. They added the hope the ceremony would be one which would advertise the prairie's direct outlet to the sea to the world, and viewed as the suggestion that overseas delegates to the Imperial Economic Conference should attend.

The recent statement of Hon. R. J. Manion, Federal Minister of Railways and Canals, that he was considering plans for formal opening ceremonies in connection with both Churchill and the Welland Canal and Hon. J. W. Major, Attorney-General, and Hon. J. S. McDonald, Minister of Natural Resources and Industry, to hope for early action.

Famine In China

Cannibals Reported Rife In Desolated Areas.

Vancouver, B.C.—Desolation and disaster in the famine areas of China were described to members of the Canadian Club by Very Rev. Hewlett Johnson, dean of Canterbury Cathedral, Canterbury, Kent, England, western provinces, the month, studying conditions in China.

Cannibals was rife in areas where food was scarce, he declared. Cannibals were said to be at almost beyond imagination. "One missionary told me he had actually witnessed the preparation of human flesh for food."

Many desperate people resorted to suicide when they had gone without food for days and no relief was in sight. "But if workers were under a severe handicap, due to poor transportation facilities, he concluded."

New "Mountie" Posts

Being Established.

One At Port Norman Will Be Opened

At Once.

Calgary, Alberta.—Royal Canadian Mounted Police will be stationed at Port Norman in the Great Bear Lake area of Canada's north, according to an announcement made by Major-General J. H. MacRae, C.B., C.M.G., D.S.O., commissioner of the R.C.M.P. An officer may be stationed also at Echo Bay, near the centre of the mining fields.

The Port Norman detachment, he said, would control the activities at Great Bear Lake, scene of recent radium-bearing ore finds, which drew hundreds of fortune hunters into the district. Establishment of the Echo Bay post will not occur for some time, he stated.

Had Minor Misfortune

Saskatchewan's Treaty Paying Party Delayed By Motor Trouble

Regina, Sask.—Minor misfortune struck Saskatchewan's treaty paying party which started out early in June for its 2,000 mile trip among the waterways of the north taking out hundreds of dollars in expenses. The party was delayed by a broken-down motor car, according to Inspector W. M. Murison, of the Indian Department. The outboard motor broke down and it was necessary to send out an auxiliary motor to the party.

The canoe party is now on its way to Portage la Roche near the Alberta boundary and it has already paid treaty at Canoe Lake and Clear Lake. S. H. Simpson, Battleford, is the paying officer this year.

Business Brisk At Churchill

Transport Company Is Increasing Equipment To Handle Freight

Churchill, Man.—Transport Limited, northern freighters, with headquarters at The Pas, have moved their Churchill office and stores from their former site near the new town survey to a truckage site near the charge operators. G. A. Reid is in charge of operations here. The business of handling package freight has increased. Work was received here that Capt. Harvey L. Weber, president of the concern, is shipping more horses north to take care of added business.

Cambrai Forest Fire.

Toronto, Ont.—Approximately 1,000 men have been added to the regular fire-fighting contingent of the Ontario Forestry Branch this year owing to the particularly difficult bush fire situation which had prevailed throughout widely separated parts of the province. Hon. William Finlayson, Minister of Lands and Forests, announced.

BRITAIN FAVORS U. S. PROPOSAL FOR ARMS CUT

Geneva, Switzerland.—Proposal of President Herbert Hoover for a one-third reduction in world armaments, which provoked instant opposition from France and varying degrees of approval from other countries when submitted by the United States delegation to the disarmament conference, was welcomed for its "breadth of view" and at the same time supplemented by additional suggestions in a statement made on behalf of Great Britain by Sir John Simon, foreign secretary.

The United States proposal to cut one-third of naval, military and air armament expenditures with a resulting saving to the world estimated at from \$10,000,000,000 to \$15,000,000,000 in the next 10 years was regarded, despite absence of official confirmation, as a condition to negotiating the war debts question. This view appeared to many observers despite the stress placed by the United States government on the statement that its representatives have not discussed war debts and reparations.

Greeting the pronouncement with the words "that any reasonable step whereby the vast total of men under arms throughout the world can be reduced in any way which does not diminish the security of any country, is welcome," the British foreign secretary went on to declare, "I say boldly, on behalf of the United Kingdom, that in some respects we want more disarmament than here appears."

We have made no secret of the fact that we want submarines entirely abolished and indeed we have hitherto understood that in this respect we have the support of the United States delegation.

"But if submarines cannot be abolished," continued Sir John Simon, "and the view prevails that for some purposes they provide an element of defence in home waters, then let us at least limit their size to 25 tons. Again, since the subject of capital ships is again mentioned today, the United Kingdom delegation desire to point out that, as they understand it, the proposals now submitted make no provision for reducing their monstrous size."

Hugh M. Gibson explained the Hoover program. It meant the United States was ready to scrap 300,000 tons of naval vessels and to forego the right to build more than 150,000 tons.

"In land materials," said Mr. Gibson, "our proposals would affect more than 1,000 heavy mobile guns and approximately 900 tanks; in aviation, about 300 bombardment aeroplanes."

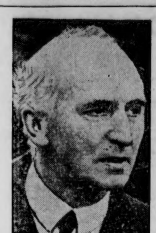

Joseph Paul-Boncour, French Minister of War, promptly responded: "Reduction of armaments is inseparably bound up with security. We are willing to study the Hoover proposals if the Americans will study the requirements of French security."

"Absolutely unacceptable," was the description of the Hoover proposals given by the French Minister of War in a press interview.

The French representatives said the proposals would give the conference "a new impetus." Readiness to co-operate was expressed by Japan and more enthusiastic response made by Italy and Russia.

A \$100,000 addition to the retail store of Woodward's, Ltd., at Edmonton, is now under way.

WELCOMES DISARMAMENT

SIR JOHN SIMON

British Foreign Secretary is strongly in favor of President Hoover's proposals, and would even go further.

Destructive Wind Storm

Tract Of Fertile Land In Southern Saskatchewan Suffers From Gale

Milestone, Sask.—Reminiscent of the Russian cyclone of June 30, 1912, the district south of Milestone was visited by a heavy wind storm accompanied by rain and hail which did untold damage to buildings and crops lying in its path. The gale came up quickly, and though it lasted for little more than half an hour it spread destruction over a tract of fertile land approximately three miles wide and 12 miles long lying about four miles south of town.

There were no deaths resulting from the storm, but Robert Rennie, Jr., had a terrifying experience and a very narrow escape when the house in which he had been reading was lifted off its foundation and smashed to killing wood. Mr. Rennie was alone at the time his wife being away visiting relatives, and he jumped from a height of about 15 feet to the ground. His only injury was a sprained ankle. It was the worst storm ever experienced in the locality. The worst hail damage was apparently done to the farms of H. Y. Underwood, Mr. A. J. Bradley, Ross Cottingham and W. N. McCarty.

Epidemic In China

Cholera Reported To Be Raging In Southern Provinces

Hong Kong, China.—Cholera is raging throughout South China. Nearly 200 new cases are being reported each day, and 70 per cent of the cases are proving fatal.

There was no case at Hong Kong, but Canton was reported especially hard hit.

A report from Wuchow said a Chinese was arrested in possession of white poisons which he said certain foreigners paid him to throw into wells.

Trade Agreement Pending

Berlin, Germany.—An agreement between Germany and Canada to negotiate a commercial treaty within six months was announced by the German Government. Higher tariff duties will not be imposed in the meantime, the contracting countries were referred to arbitrate over annual payments by the Free State to Great Britain should also be considered. It is, therefore, regarded as probable here that if the Irish authorities were to agree to the principle of arbitration before an Empire tribunal, Great Britain would consent to having the scope of the hearing extended beyond the matter of land annuities.

Lovers Own Frigate

Cherbourg, France.—The steam ship "Empress of Britain" lowered the record of the Atlantic crossing again by an hour from her own record. She arrived at Cherbourg in four days, seven hours and 58 minutes from Father Point, Quebec.

Veterans Ask Probe

Claim Alleged Fraud Cuts Shodown On Administration Of Pension Act

Ottawa, Ont.—Declaring publicly given to allegations of fraud and misrepresentation in connection with war pensions cuts a serious shadow on the administration of the pension act, the Associated Veterans of Canada have issued a statement calling for an investigation of the charge.

The statement is signed, representatives of the Army and Navy Veterans, the Canadian Legion, including the Veterans of Foreign Wars section, the Great War and the Sir Arthur Barre Amputations' Association, the Canadian Pensioners' Association of the war club of Blind Soldiers and Soldiers.

Ottawa, Ont.—No "general investigation" into the war pensions system and into frauds that have been perpetrated by reason of misrepresentation on the part of a number of recipients is contemplated, Colonel J. G. Thompson, chairman of the Board of Pensions Commissioners, said. That frauds existed was known, and these were being checked daily.

Cowboys Hold Bronchos

Until Toronto Rodos Authorities Come Across With Vagons

Toronto, Ont.—Never-say-die spirit of the Canadian west has manifested itself in a humorous fashion.

An even score of cowhands from southern Saskatchewan and Alberta were tending 65 bronchos on the outskirts of Toronto. They rode off with the animals when they did not get paid for their week's work at a local stampede and rode. And they have declared their intention of keeping the bronchos until the rodeo authorities come across.

Seven-foot-tall Harry Hourie, of the Wood Mountains, relative of the man who captured Louis Riel, instigator of the Northwest rebellion, was in the van as the 20 rode off with the 65 bronchos.

DE VALERA PLAN DOES NOT MEET WITH APPROVAL

London, England.—Suggestions of President Eamon de Valera, of the Irish Free State, that the difference between Great Britain and the Free State over the payment of land annuities should be referred to an international tribunal is unacceptable to the British Government, it was understood here following a meeting of the cabinet.

Considering its reply to De Valera's note, in which the suggestion was made, the cabinet was believed to be firm in the opinion that only an Empire body could be permitted to arbitrate matters affecting the relation between the government of Ireland and Dublin.

At the same time the ministers were not inclined to contest as vigorously a second point in the De Valera memorandum, namely, that if and when the land annuities dispute was referred to arbitration, the annual payments by the Free State to Great Britain should also be considered. It is, therefore, regarded as probable here that if the Irish authorities were to agree to the principle of arbitration before an Empire tribunal, Great Britain would consent to having the scope of the hearing extended beyond the matter of land annuities.

CROP REPORTS FOR WEST ARE ENCOURAGING

Montreal, Que.—"In practically every important agricultural region in the Dominion the crops have been making excellent growth, although east of the Great Lakes rain will be needed in the near future if favorable prospects are to continue," states the current telegraphic crop report of the Bank of Montreal. "Ideal weather throughout the prairie provinces has brought the grain along rapidly and wheat is now advancing into the shad blade stage in healthy condition," the report continues. Moisture conditions generally are satisfactory at present.

In Ontario prospects for better than average crops have received a setback from two weeks of dry weather, though conditions are again reasonably satisfactory. In the Maritime provinces growth has been somewhat slow, warmer weather being needed. In British Columbia the growing conditions have been excellent and prospects are good. Details follow:

Western Alberta: Northern areas present higher temperature have prevented growth of all crops. Wheat stands at about 15 per cent, in south 32. Alberta south-eastern area—

Warm weather with intermittent rains is producing rapid growth of crops. The growing season is well advanced. Pasture is plentiful. Alberta western area—Early sown wheat averages 6 to 10 inches, about 10 per cent in shad blade. Moisture is sufficient.

Saskatchewan northern area—Wheat is standing satisfactorily, with a healthy appearance. The average height is 10 inches. Coarse grains are somewhat patchy. There is sufficient moisture for the present.

Saskatchewan, southern area—Wheat is coming into shad blade at an average height of 12 inches. Bladder grass is making good recovery, although the crop is patchy in some districts. Coarse grains are making fair, but uneven progress, due to lack of moisture at seeding time. In the southeastern area grasshoppers are becoming troublesome. Rain is needed in some districts.

Manitoba—Wheat is growing under favorable conditions and is largely in shad blade. Moisture is satisfactory. Clover and grasshoppers have caused some damage, but good rains and preventive measures are helping to control the threat.

Pull wheat in head and is exceptionally promising, but some sown is showing up. Clovers are heavy. British Columbia—Grain is showing satisfactory growth and 100 per cent hay crop is now being harvested. Heavy crops of roots and vegetables are showing up.

Heavy crops of roots and vegetables are showing up. The growing season is well advanced. Pasture is plentiful. Alberta western area—Early sown wheat averages 6 to 10 inches, about 10 per cent in shad blade. Moisture is sufficient. In the southeastern area grasshoppers are becoming troublesome. Rain is needed in some districts.

Ship Via Churchill

Manitoba Liquor Imports To Come Through Northern Sea Route

The Pas, Man.—Manitoba's liquor imports during the next year will come largely through the province's new seaport at Churchill, the Board of Trade of The Pas has been assured by H. D. Waugh, chairman of the Manitoba liquor commission.

The board has been scouting about for return cargoes from overseas for the new northern port and following the assurance from the Manitoba liquor commission, will ask Saskatchewan and Alberta to have their import liquor routed through Churchill.

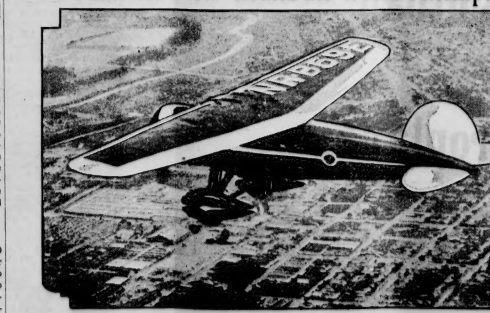

Production Of Cars

Ottawa, Ont.—Production of automobiles in Canada, in May, totalled 8,221 cars, as compared with 6,810 cars during the previous month, according to a report issued by the Dominion Bureau of Statistics. Customs records for May showed that 163 cars were imported into Canada and that 374 were exported during the same period.

Gold Rush In Alaska

Seattle, Alaska.—Spurred on by reports of a fabulous rich gold strike, prospectors are rushing into the Nukla district, 70 miles west of here. The discovery was a body of free gold ore, estimated to run to 100 tons. The ore is being used to run the mine. Aeroplanes are being used extensively.

Plane for New 'Round-the-World Attempt

This is the Lockheed monoplane which will be used by Bennett Griffin, war veteran, and J. M. Mattern, in their attempt to be the 'round-the-world record set by Harold Gatty and Wiley Post last summer. The fliers recently arrived in New York from Oklahoma to prepare for their globe-circling flight. The present record for the long trip is eight days and fifteen hours.

Report of High School Examinations

The basis for the following report is 30% for term tests, and 70% for the final examinations, as set by the Department of Education. At least 50% is required to pass in each subject. Special mention might be made of the fact that Ethel Gardner, Agnes Holm and Alex Taylor each made 100% in the Departmental paper in Algebra I.

Local & General

The Saturday night dances are becoming quite popular. There were visitors last Saturday night from Oakland, Calif., Medicine Hat, Carbon, Lethbridge and Vulcan. Come and enjoy the social dance. 25c each.

Mr. A. A. Adams returned to Champton recently, having spent the past few years in Los Angeles. He was very highly impressed with Alberta, stating that its appearance was a contrast to the dry country which he passed through enroute. Mr. Adams intends remaining here during the summer.

The popular Alexandra Ball Room orchestra, of Vancouver, will play at Waterton this year. This no doubt will attract many holiday people.

J. M. Moffatt has been ill and confined to his bed since Sunday.

Mrs. Collison and son were Arrowwood visitors over the week end.

The home of Mrs. Milliken has been purchased by Mrs. John Carlson.

Mrs. Fred Clover and Miss Cowell were Lethbridge visitors Saturday.

Mr. and Mrs. Baker motored to Calgary last week end.

Champion and Barons ladies met on Friday night in a softball fixture at Barons which resulted in a win for the former by a score of 12-4. The line up for Champion was as follows: K. Cowell c, M. Fisher p, B. Bastin 1b, J. Bastin 2b, A. Williamson 3b, R. Anderson ss, P. Bastin lf, Mrs. Berger cf, M. Collison rf.

Elks Attention!

The next regular meeting of the Benevolent and Protective Order of Elks will be held in the Community Hall Champton, on Tuesday July 5, at 8.30 o'clock.
Your attendance will be appreciated
C. RHODES, Secretary

Mr. and Mrs. John Ohlbeiser and Mr. and Mrs. Ed. Weiss were Stately visitors this week.

Mrs. Benson of Lomond entertained at dinner in honor of her mother's, Mrs. Nels Anderson, 70th birthday. A very enjoyable afternoon was spent by all present. The guests included: Mr. and Mrs. J. Anderson and family, Mr. and Mrs. Arthur Anderson, Okotoks, Mr. and Mrs. Martinson, Calgary, Mrs. C. A. Williamson, Miss Ada Williamson, Mr. and Mrs. Horn and family and Mr. and Mrs. Nels Anderson.

Private gardens around Champton are truly show places these days, as the annual crop of beautiful shrubs and flowers spring forth in all their glory.

G. M. Campbell has the honor of displaying the largest pansy grown in Champton or whereabouts this year. We would judge it was at least three inches in diameter.

Examinations were completed Thursday and all members of the school staff and pupils are enjoying a long anticipated holiday. The examination papers were reported to be about the same "stiffness" as in former years.

On Tuesday, June 22 a demonstration of the Tractorator, a new I. H. C. product, was held at the Cool Bros. farm north-west of town. A large crowd witnessed the demonstration and an unusual amount of interest was aroused.
